Manuale di costruzione per scatola

ARTE MECCANICA

La meccanica è da considerarsi un'Arte; di pensiero, di idealità e di capacità manuali.

Il fanciullo manifesta questi desideri creativi, che verranno pienamente soddisfatti, possedendo delle scatole di "ARTE MECCANICA".

Le scatole d'ARTE MECCANICA sono suddivise nel modo seguente:

Scatole complete		Buste a completamento
Scatola 000	Pezzi N. 38	
Scatola 00	Pezzi N. 103	Busta 00
Scatola 0	Pezzi N. 150	Busta 0
Scatola 1	Pezzi N. 195	Busta 1

Per completare una scatola superiore di quella in possesso, basta chiedere al fornitore la Busta Supplementare, così con minima spesa, potrete avere le scatole superiori.

Es.: Avendo la scatola "Arte Meccanica 000", per completare la scatola "00", si chiederà la Busta "Arte Meccanica 00" e così per il completamento delle successive scatole.

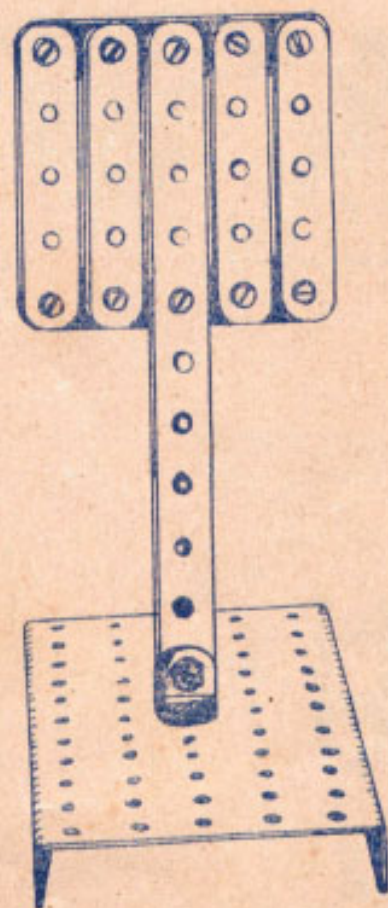

Volendo, si potrà acquistare anche i pezzi staccati, vedi Tabella, menzionando solo il N. del Catalogo del pezzo occorrente.
