DOI 10.1002/for

There is a growing body of evidence, summarized in Table 1, that suggests that the use of the Internet and electronic commerce is increasing. This is a trend that is likely to continue, and it is likely to have a significant impact on the way that businesses operate. The use of the Internet and electronic commerce is likely to lead to a more efficient and effective way of doing business, and it is likely to lead to a more competitive market.
