HERE'S HOW TO FIT LEGO PARTS TOGETHER

The LEGO "bricks" are precision made and fit together perfectly. Take two of the 8-knob bricks...

press firmly together—top against bottom. The large tubes on the bottom of the bricks...

fit perfectly in between the smaller knobs on top. There are many possible "position combinations."

While all of the models shown in this folder cannot be built with any particular LEGO set, they do illustrate the wonderful versatility of LEGO. As you add to your LEGO collection through the purchase of supplemental boxes you will be able to make larger, more exciting models.

"MODEL IDEAS"

No. 001 GEARS

No. 002 MOTOR PAK

No. 285 SET
One of six basic sets.

FORM NO. K-2236R—PSD—IN U.S.A.

Gift Sets

For Boys and Girls of All Ages

No. 120

A perfect starter set. This 120-piece basic set provides bricks in a wide selection of colors and sizes. Builds simple houses, boats, cranes, etc.

No. 205

This 205-piece basic set is large enough to build bridges and larger houses, even toys with real wheels and tires.

No. 285

Basic set containing 285 pieces is enough to construct a four-story house, even a truck with a trailer.

No. 375

375-piece basic collection offers more parts and more building ideas. Makes towers, wheel toys, even mosaics.

No. 450

This 450-piece set includes enough wheels and parts to make a 10-wheel engine. Builds wide variety of larger models shown on box.

No. 615

Set of 615 pieces in two storage trays. Makes giant crane or super locomotive with both large and small wheels, double-tower cathedral.

No. 003 MASTER MECHANIC SET

Wide range of parts in two storage trays. Includes motor, battery housing, (gear models will work automatically) gears, wheels and basic bricks.

No. 004 MASTER BUILDER SET

The ultimate in sophistication! Gears, wheels and enough accessory parts so any number of complex models may be built. Packed in two handy compartmented storage trays.

No. 001 GEARS

Adds action to any Lego set. Contains 12 gears in assorted sizes and colors, plus enough extra parts to make entire gear assemblies. This set, combined with any collection of Lego, offers a world of engineering possibilities.

No. 002 MOTOR PAK

A high-precision, long-lasting motor engineered to motorize Lego gears in any practical arrangement. Includes battery housing for 3 standard flashlight batteries (batteries not included).

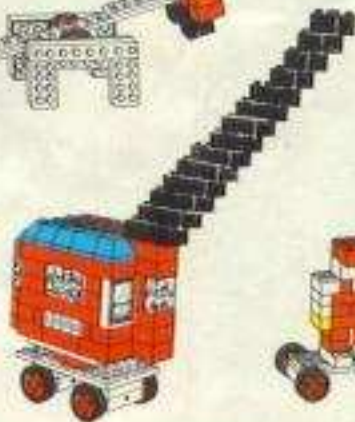

No. 021 WHEEL SET

Builds all kinds of cars, trucks, trains, and other wheel toys. Wheel assemblies fit any standard Lego collection.

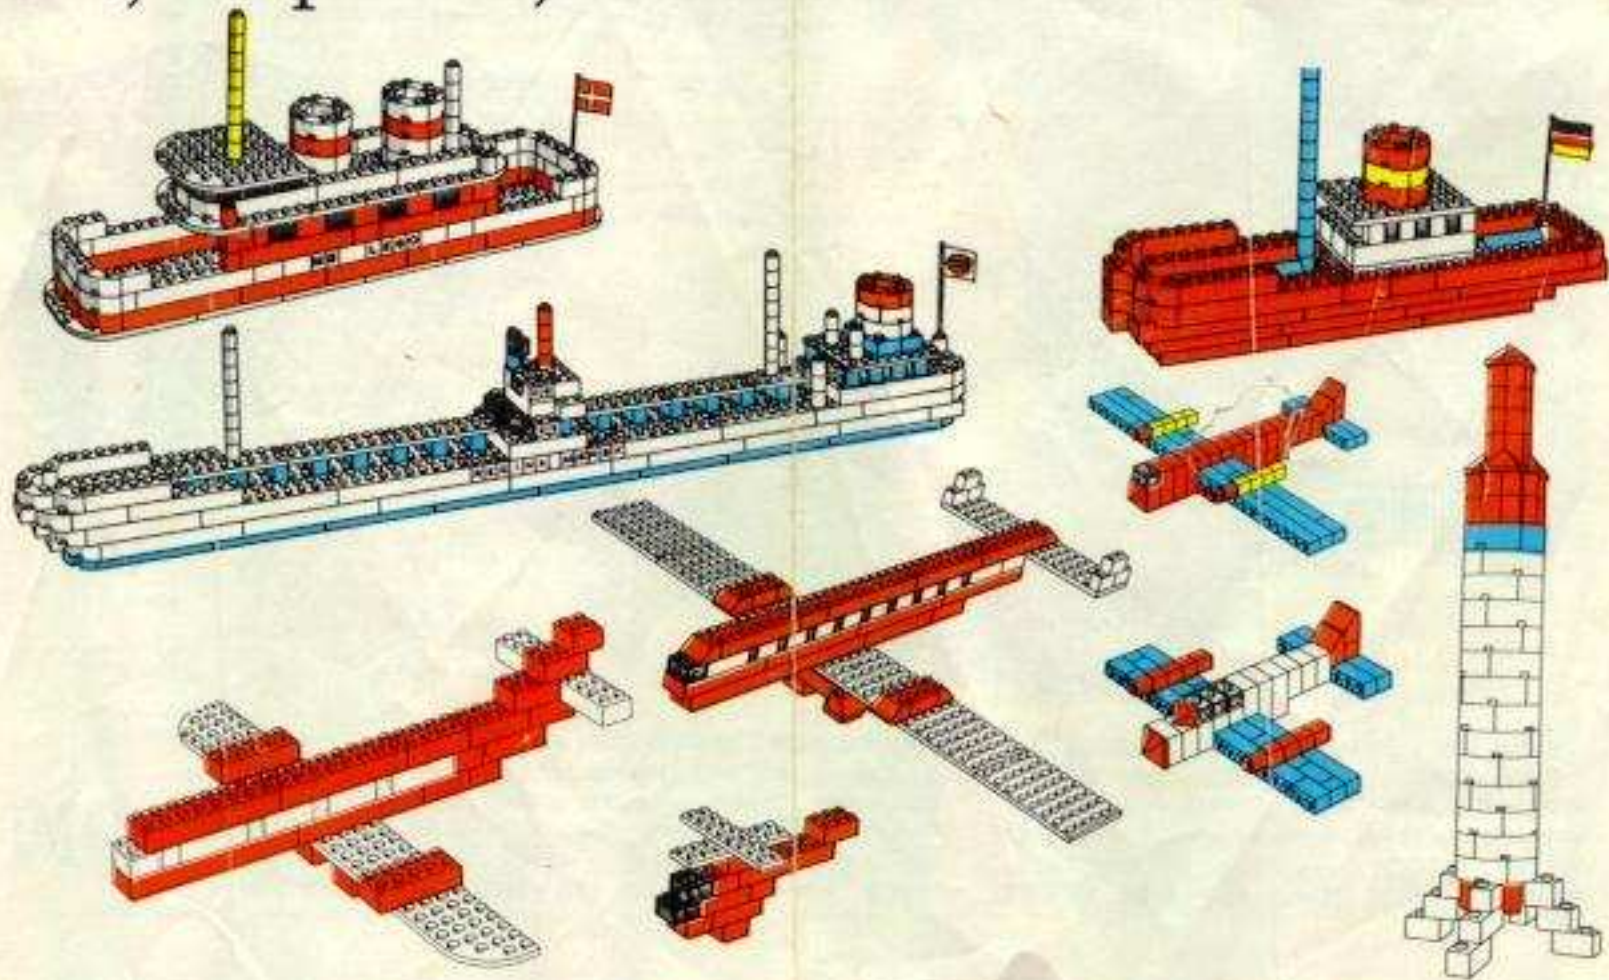

No. 041 PRE-SCHOOL SET

FOR PRE-SCHOOL AGE

Specially designed for little hands and young minds. 24 (12 Red and 12 White) jumbo (1" x 2" x 4") bricks make a perfect toy for tots of pre-school age. Safe, sanitary, colorfast plastic.

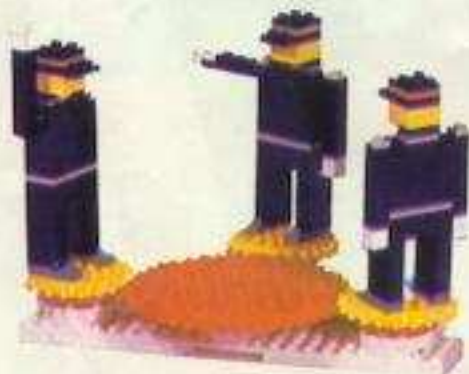

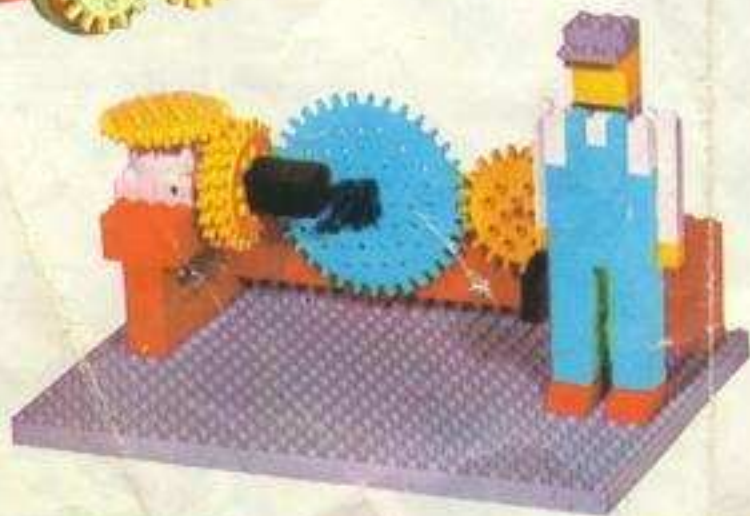

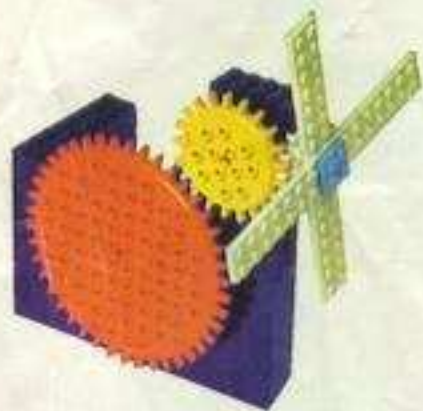

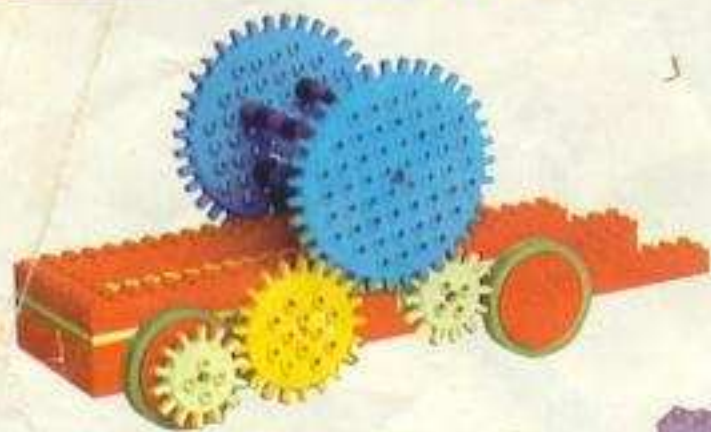

Cars, Airplanes, Cranes And Boats

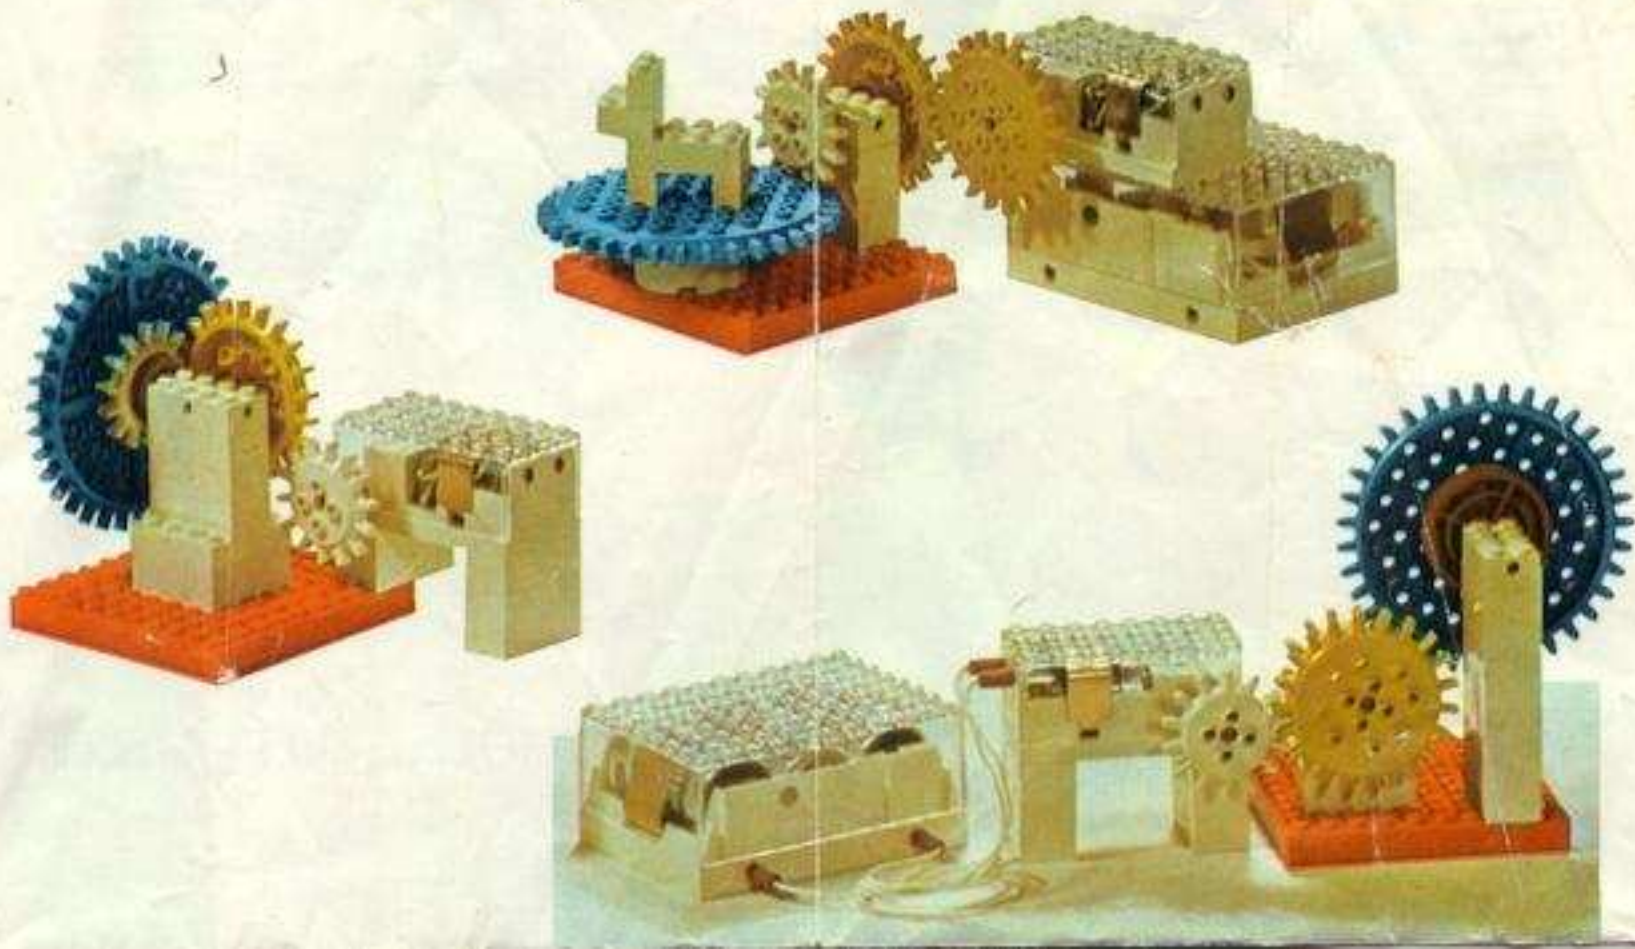

Lego now has Gears &

& Motor

LEGO GEARS added to any LEGO collection make it possible to build many exciting toys that move in a fascinating manner. Gears come in several sizes and colors. The gear models develop the child's interest in many basic engineering principles.

LEGO MOTOR PAK puts motorized "action" into a LEGO collection. It includes a precision-made battery-operated motor and a sturdy battery housing which accepts three standard "C" size batteries. The Motor propels any LEGO Gear model.

Extra Parts are the easy way to add to a Lego Collection

Any one of the 39 different LEGO parts shown below will fit any LEGO collection. They meet the growing needs of children as they develop a greater interest in

building larger and more interesting models. Extra Parts packages make an ideal and inexpensive gift to enlarge any LEGO collection.

These basic parts are included in assortments indicated (see opposite page).
