Set Number
775

A detailed LEGO model of a fire fighter ship, set number 775. The ship has a prominent red hull with the words "FIRE FIGHTER" printed in white capital letters. The upper sections are constructed from white and blue bricks. A blue section on the side features a white Maltese cross with the number "1" in the center. The ship is equipped with various grey mechanical details, including what appear to be cannons or water cannons. A small white anchor symbol is visible on the red hull near the stern. The ship is shown sailing on a blue, wavy surface representing water, against a dark, dramatic sky with greenish-blue clouds.
