

STANLO

PAT. APPL'D FOR

INSTRUCTION BOOK

MANUFACTURED BY STANLO, NEW BRITAIN, CONN.

MAIN OFFICES AND PLANT, NEW BRITAIN, CONN., U. S. A.

STANLO

MADE BY

THE STANLEY WORKS

the largest hinge and tool manufacturers in the world

YOU ARE GOING to have a lot of fun building things with STANLO.

STANLO is made by the same people that make Stanley hinges. If you will look at the hinges on the doors in your house or at school you will probably find that they have this mark . STANLO is a patented toy made like a hinge. When you put two pieces together with a rod, you will have what amounts to a hinge.

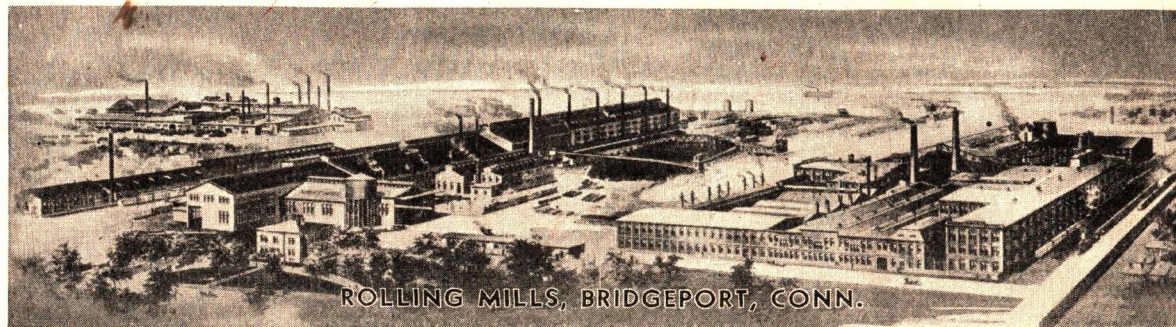

We could fill this book with the names of big buildings with every door swinging on Stanley hinges. The Empire State Building in New York and

the Furniture Mart in Chicago are two that you probably know about. We have made so many hinges that sometimes we say, "Stanley swings the doors of the world."

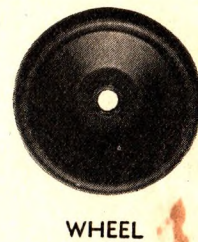

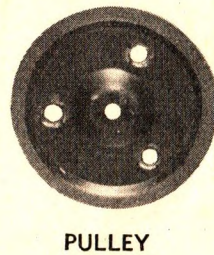

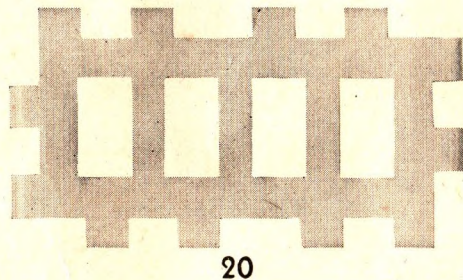

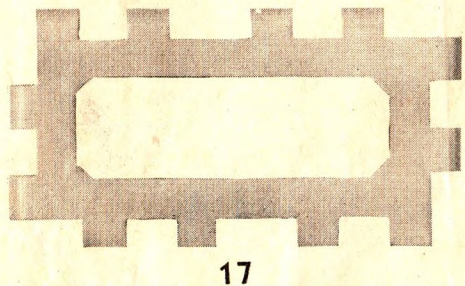

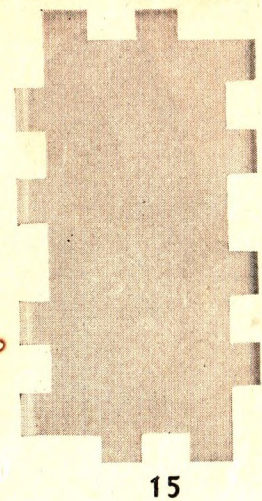

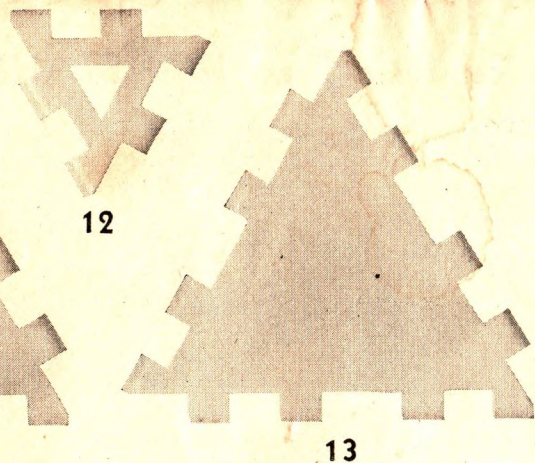

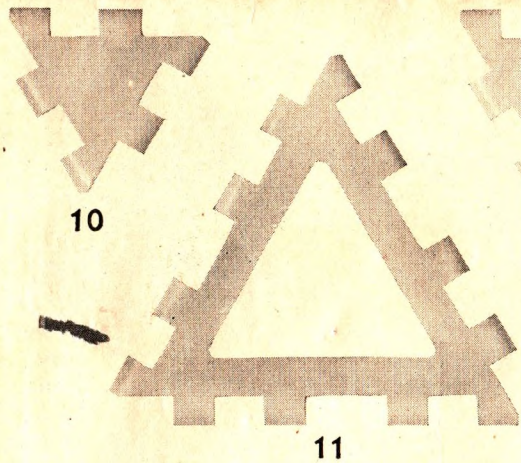

The pictures on this page show the plant where the steel is rolled and the main plant where "STANLO" is manufactured, finished and packed. A separate Stanley plant manufactures the lacquer used to finish the pieces. Complete laboratories continually test and check every manufacturing process to assure you a quality product.

STANLEY PRODUCTS

HINGES • BOLTS • GARAGE HARDWARE • WOODWORKING
TOOLS • ELECTRIC TOOLS • AUTOMOTIVE TOOLS • LACQUERS
AND ENAMELS • BOX STRAPPING • STEEL • PRESSED METAL
PARTS • FURNITURE HARDWARE • HAMMERS AND HATCHETS

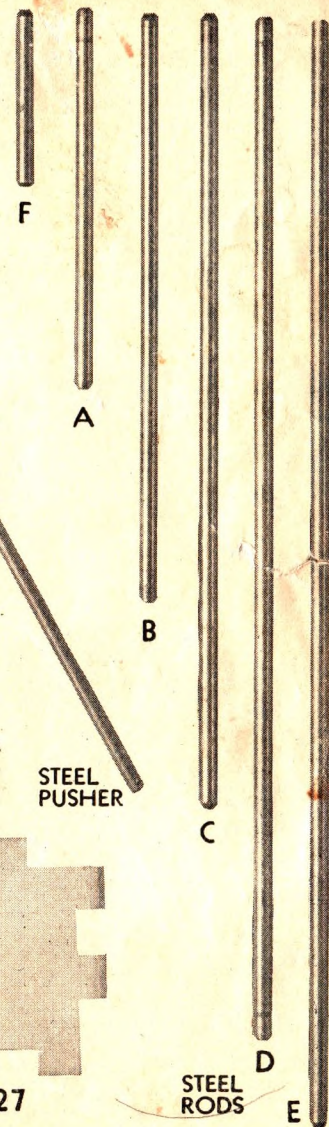

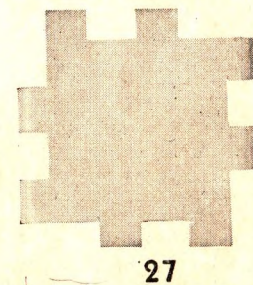

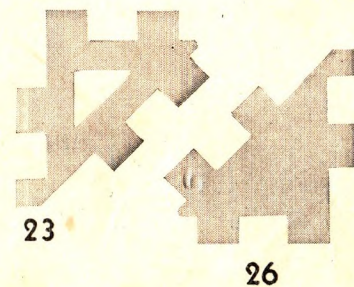

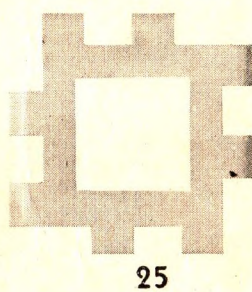

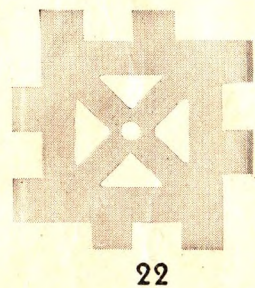

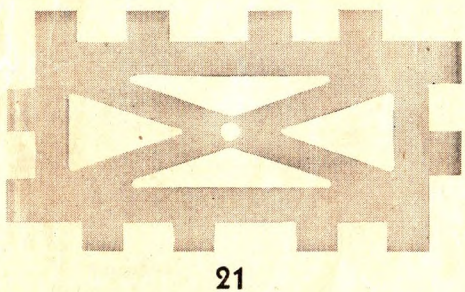

ROLLING MILLS, BRIDGEPORT, CONN.
