TRIX No. 1A, 47 parts. Supplementary to No. 1.
TRIX No. 2A, 44 parts. Supplementary to any other
TRIX outfit. Many parts patented.

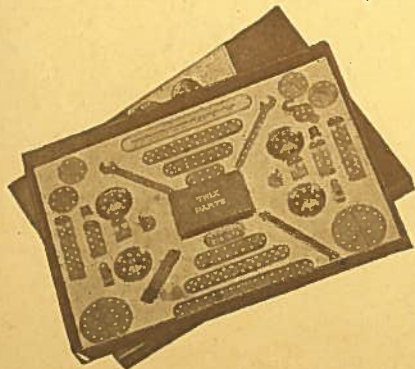

Each **6d.**

TRIX UNIVERSAL GEAR SET

A grand assortment of large and small Gear Wheels, Worm Drive, Sprocket Chain, and other necessary parts for making direct Gear Drive for many speeds, Right-Angle Gear Drive, Worm Drive and Chain Sprocket Drive, with endless variations of Gear Ratios. Polished Brass finish. With instruction sheet.

1/-

TRIX No. 3.

Combination of No. 1, 1A, 2A

A combination containing parts out of Sets Nos. 1-1A-2A, for making models in endless variety. Displayed in a grand box. Complete with TRIX Book No. 1 and Book No. 2. A good Outfit to start with. New **2/6** Boxing.

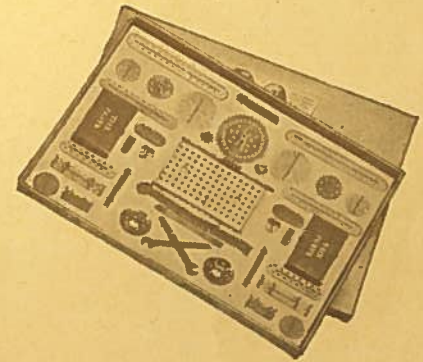

NEW No. 2. ELEMENTRIX Makes 150 Models!

"Elementrix" is a combination of Trix No. 1 and No. 1A, each of which can be bought for sixpence, BUT besides being contained in a handsome box, "Elementrix" has in addition a magnificent new Instruction Book. With this it is possible to build no less than 150 DIFFERENT MODELS. Here is record value indeed, heaping value for One Shilling. New Boxing. **1/-** Stupendous value!

TRIX GEAR SET No. 4

Contains 245 TRIX parts, including the UNIVERSAL TRIX GEARS. The Set is supplied with three Instruction Manuals, Nos. 1, 2 and 3, and attractively displayed in handsomely coloured box. New Boxing. **5/-**

In the new range of the wonderful TRIX Constructional Sets you have an ever wider variety to choose from than ever before, and for price and quality they are quite unequalled. Even the Trix No. 1 Set, at sixpence, contains 51 parts, and each successive set is a stepping stone to the making of some of the finest models ever built with Constructional Sets.

There are Gear Sets, especially popular with boys "who like to see the wheels go round," and for the modest half-crown a boy can buy "Tricy Trix," the Electric TRIX, which works from an ordinary pocket battery.

The "MOTO-TRIX" will supply almost unlimited power by means of the sturdy TRIX motor, whilst for those who like the very latest in completeness, the "TRIX MAJOR" and the "SUPER TRIX" in their handsome cases, are difficult to beat.

"SCIEN-TRIX" enables you to make 100 interesting experiments in electricity, physics and magnetism; it is an entirely new departure, and you'll be delighted with it. From the TRIX Sets illustrated you can make your own choice from 6d. to a guinea.

And here's one final point of immense importance: Remember there are NO EXTRA PARTS TO BUY: NO EXPENSIVE ACCESSORIES; and that only with TRIX can you

BUILD, DRIVE AND LIGHT MODELS, AND PUT THEM IN GEAR!

TRIX TYRES

Small and large sizes, each

3d.

TRIX BOLTS & NUTS

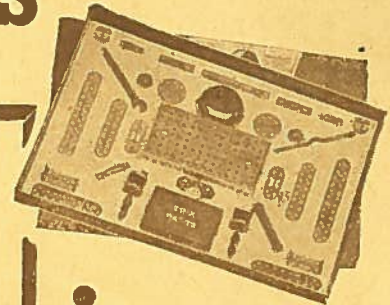

18 extra bolts and 18 nuts for

3d.

TRIX BOOKS
